

October 28, 2008

To Whom It May Concern:

In order to facilitate the continued development and support of MIFit, MIFit+, and MIExpert, Rigaku Americas Corporation (RAC) is hereby releasing this software as open source software under the most recent Gnu Public License (GPL).

RAC will continue to retain the copyright for MIFit. The Molecular Images Foundation is being formed as a non profit organization to manage the continued development and distribution of MIFit. Once it has been formed, RAC will have no ownership or control of the Molecular Images Foundation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mel Kitagawa'.

Mel Kitagawa
Sr. Vice President
